Subject: Cycle Source Magazine - No Longer Welcome In West Virginia?

Message: Copy of a letter that I sent to many of the local and county officials of Parsons, WV:

To whom it may concern,

My name is Chris Callen, publisher, and owner of Cycle Source Magazine. We are currently the number two motorcycle magazine on national newsstands and have been running a national event in Tucker County for five years now. I am writing you today with a heavy heart because it seems as if we are no longer welcome. After several attempts to find out why the board responsible for Camp Kidd rescinded our welcome, we were told that our attendance numbers exceeded the capacity of the facility. When we asked what that number was, we were told that they had no idea, but we were over it. Please let it be known that full property rent was paid in full at the start of the event, and the grounds and facilities were left in better condition than when our organizers arrived on site. In working with Tammy Michaels, Office Mgr / Event Coordinator of Parsons, we were surprised to hear that no one from the board would provide her with an answer either. However, the local businesses of Parsons were very upset that this event would no longer be held in their town as it brought valuable revenue with it. Tammy mentioned that even the County Commissioner, Patrick Darlington, wouldn't return her phone calls on this matter.

BMR has built positive relationships with the town and adjacent communities such as Davis, the local businesses, the local government, and even the state police. I'm honored to report that on more than one occasion local and state law enforcement reports that our motorcycle event was easier for them to deal with and had a more pleasant crowd than other Tucker County events. As you can imagine, we are at a loss as to why we are being chased off. It would almost seem as if a certain level of prejudice was being shown to the motorcycle riders we bring into the state. That's where I have to take large exception to this treatment and let me tell you why in a short history of my work with the state of West Virginia.

In the late 90's, then Governor, Bob Wise wrote me a letter welcoming Cycle Source Magazine and its readers to West Virginia. As a Pittsburgh based publication back then we were growing and WV was getting on board early. I began working with the folks at MountainFest in the early part of their event's development and through them aided in bringing some 15 other national motorcycle journalists to the state of West Virginia to attend MountainFest and several Press junkets to work towards more motorcycling tourism in the state. All the while writing about the riding and events in West Virginia in my own publication which continued to grow on national newsstands. We reported on WV's motorcycle only tourism site, the only one of its kind at that time. We valued our relationship with the state at the highest level.

Then, four years ago, we decided to put our money where our mouth was and bring our five-year-old annual event, The Big Mountain Run to West Virginia. Despite being a helmet law state, we felt that the riding and the people would win over

these detractors and we would have an uncommon motorcycle event for it. We took people on organized rides and introduced them to the beauty in your state like the Black Water Falls, the Cannan Valley and the mountain scenery that makes it such a special place. After four years of hard work and slower attendance than we had previously, the event had grown into respectable, manageable numbers again. Parsons is a fairly remote location for an event; it took some time to get people to give it a shot. We worked with the local brewery to give people who attended a taste of WV; we worked with the city to organize a parade through town last year, we helped raise money each year at Patriots Four for the veterans and even donated some of the BMR proceeds back to the 4H club. All this to only find out in our fifth year that we would no longer be welcomed back to Camp Kidd.

As you can see, my personal investment and that of my publication in this state, motorcycle tourism and the city of Parsons has been a long hard road and a story of commitment. A 20-year story of winning the hearts and minds of motorcycle riders from all over the country on behalf of Cycle Source Magazine and the State of West Virginia. You can imagine then that I am without words over the issue of not only being told that we are not welcome back at Camp Kidd but not even worth a true answer as to why or an opportunity to plead our case. Ignored as if we had never stepped up for your state, never gave our time and effort to improve your relationship with the motorcycle riding public, other journalists or ever lifted a finger in the name of the charities we came in contact with while doing so. It makes me wonder if the general "Welcome Riders" policy of West Virginia has not changed now, this 20 years later.

As I finish this email,, I am looking at the letter from Bob Wise, framed and hanging on my wall in its place of honor as a reminder of how this relationship started. It would be nice if someone would respond, I would love also to have an official record of how this relationship ended.

Subject: Time to allow 7-day sale of distilled spirits in WV!

Message: Governor Justice,

It's hard to understand why West Virginia's blue laws **STILL** ban the sale of distilled spirits at retail establishments on Sundays. This makes no sense and is extremely inconvenient. Why shouldn't I be able to buy a bottle of my favorite distilled spirit while I'm doing my shopping on a Sunday?

It's time to Boot The Ban! Please support pro-consumer legislation allowing West Virginia retailers the choice to sell distilled spirits 7-days a week.

Most importantly please do away with the bag las regarding alcohol sales. It is very wasteful and harmful to the environment.

Thank you, Chris Luton

State: [REDACTED]
Zip: [REDACTED]
Phone: [REDACTED]
Email: [REDACTED]
Subject: Twelfth Judicial Circuit (Fayette) & State Supreme Court Vacancies
Message: Dear Governor Justice,

I am a practicing attorney in Fayette County, to which I returned to practice law after serving our country as an intelligence officer in the US Air Force, the FBI and the CIA for 18 years.

I returned to find the beautiful county in which I grew up much as I'd left it. Though, Montgomery had deteriorated due to the decline in population and Fayetteville had flourished from the influx of entrepreneurs in the tourism industry, one thing that did not change that I wish had: the "old guard" that's been running Fayette County politics since my childhood. This group, led by a man named Shirley Love have managed to perpetuate the standard of mediocrity in our county's elected officials for decades through abject cronyism. I believe the judicial vacancy in our (12th) circuit - the first in 13 years - presents an opportunity to change things up for the better.

It's my understanding the JVAC narrowed down its recommended candidates to three, which include two of the few Republican attorneys we have here and Shirley Love's candidate, who is currently the elected first-term prosecuting attorney (who sadly ran unopposed). A short conversation with any member of our local bar would enlighten you about why Mr. Love's candidate should not become judge or hold any office here.

As for your other choices, Mr. Fast and Mr. Ewing are your best Republican applicants and Brian Parsons was your best Democratic applicant. There are also other excellent choices in Fayette County who did not apply for the position, but might if you chose to re-post it.

I am writing you because I care about my County and my State and I want to be a part of its evolution. I am considering a run for prosecuting attorney in 2020 in an effort to do my part if I have our party's support. I want to return the practice of holding office to being a public service rather than an unearned entitlement. We could do so much better than we are with even minor tweaks to how we do things.

I wanted to implore you to choose our next judge wisely because the citizens and practicing attorneys in Fayette County could be stuck with that choice for decades to come (Judge Hatcher was on the bench 28 years). We cannot afford to bet on more of Shirley Love's lame horses in this losing race to address the crime and broken homes destroyed by the drug abuse here. We need strong, independent leadership not beholden to a special interest group and who earns the public's trust.

I urge you to take the utmost care to equip our county with the kind of judiciary we need.

On a slightly different note, I also practice law before Senior Status Judge James Rowe in Nicholas County, who I learned this morning applied to fill former Justice Loughry's position on our Supreme Court. Without hesitation, I believe Judge Rowe has exactly the experience, wisdom and temperament we need on the Court right now. Judge Rowe is a former US Air Force fighter pilot, but you would never know it by his humble demeanor. He is thoughtful and measured in his rulings and is well-respected by all of us who practice before him. I was excited for our state when I learned he'd applied to the Court because I feared he'd return to retirement after he finishes filling in for Judge-elect Callaghan in February. I hope you will take a close look at Judge Rowe as you choose our next Justice.

Warm regards and thank you for everything you do,

Allison Taylor

Email: [REDACTED]
Subject: No to Rucker for Education Leadership
Message: Governor,

I'm trying to reach Mitch Carmichael, and am asking for your help.

I'm Joanna Burt-Kinderman, a math coach in Pocahontas County. I've emailed you many times over the past several years, but I'm really hoping you'll talk with me on this issue. My husband Josh worked for you years ago with Klemish at the Sporting Club, and even longer ago, I was your daughter-in-law Catherine's high school math teacher in Roanoke.

Yesterday, I got some great news and heard some *really* disheartening news. I learned that I won a national award as a "Leader to Learn From", and I will join 12 other district leaders from the country to share our stories of how we do innovative good work. <https://leaders.edweek.org/leaders/2019-sneak-peek/>. This news was shadowed by a rumor that Carmichael will remove Senator Mann from his role as Ed chair and install Senator Rucker, who has a stated extremist education agenda.

I'm on two project teams bringing great NSF money to WV: One to identify, support and leverage master math teachers where we're convening 80 top teachers, district leaders and school administrators from 35 districts (https://www.wvnews.com/.../article_f804e6c8-35df-51f7-9e3a-7a...). Another to retain more rural first generation students in the STEM pipeline (<https://vimeo.com/261252420>).

In short, I am a native WVian who came home a decade ago to try to give myself and my skills to improving the future of this state for our kids and citizens. I'm working on building connections in every way I know to make WV better. People like me NEED legislators who will take our calls, welcome us into conversation, trust our opinions and not play politics with education.

In Senator Mann, you had an education chair who supports and understands public schools. You had a moderate who didn't play politics with education and kids. Next to him was Karnes, who was an avowed critic and enemy of public schools and public school teachers. Rucker is the closest to Karnes that I see on the committee. The Republican voters (and teachers across the state) spoke clearly that Karnes' philosophy is not what we want leading education issues for our state. We feel the SAME way about Rucker.

PLEASE don't start this session with a fight. We are tired of fighting. We want to work together to build a better WV, across the aisle. Appointing Rucker is a slap in the face of teachers and is a clear message that the entire Republican leadership doesn't care about investing in public schools and doesn't respect the viewpoint of educators.

Please, please reconsider this appointment. Put your ideologues elsewhere and keep education a moderate place where we can work across the aisle.

Please don't hesitate to give me a call if you are willing to talk.

Joanna Burt-Kinderm

Message: Judge Joanna Tabit would be an excellent choice for the vacant seat on the WV Supreme Court. She is a qualified and well respected member of the legal community and I believe would rule based on the rule of law. She also was the people's choice having come in third in the recent election. The people's voice should be respected.

Message: Governor Justice

I hope this message finds you well. I am writing in regards to recommendation for the Nineteenth Circuit Court Judge. My recommendation for this appointment is Shawn David Nines. Shawn and I grew up together along with attended school together. Shawn and I graduated from Grafton High School "Class of 1993". Shawn is not only an outstanding person but a person that puts others in front of him. With Shawn's background and knowledge he would be an outstanding choice for this position. Taylor County is home to Shawn and this only accelerates this choice as he loves and cares for his community.

In closing I ask that you please consider Shawn as he will not only be fair but do an outstanding job for the Nineteenth Circuit Court

Happy Holidays

Pat Tucker
Taylor County Board of Education Member

Subject: Public lands need proper management and funding

Message: Dear Governor James C. Justice,

This is my bottom line: I expect my decision makers to honor and support a system of belief on public lands management that allows our great American traditions of hunting, fishing, and enjoying the outdoors to flourish. In addition to keeping America's public lands in the public's hands, I request that you actively work to:

- Conserve important habitats, including critical winter range, sensitive watersheds, big game migration corridors and stopover habitat
- Safeguard special places where hunting and fishing are the highest and best use
- Support the existing authority of state fish and wildlife management agencies to manage fish and wildlife populations.
- Guarantee the sporting public a voice in how their public lands are managed
- Ensure that energy development is balanced with the needs of fish and wildlife habitat and take active steps to reduce impacts
- Maintain existing public access and secure future access to currently inaccessible public lands
- Keep decision making authority for public lands in the hands of federal public land agencies while supporting strong state and local collaboration
- Provide Federal land management agencies the tools and funding necessary to effectively manage our public lands
- Fund and facilitate habitat improvement and restoration to boost fish and wildlife populations
- Work together with public land stakeholders to collaboratively address 21st century land management challenges in ways that protect and restore fish and wildlife habitat

Thank you for considering my comments to improve our public lands and the hunting and fishing opportunities they provide.

Sincerely,

Message: I was wondering if anyone could help my ex-wife and I. My son was a ward of the state for 9 months for some pot usage problems. He is 16, and I appreciate all the help the state has given him to straighten up. He is now a straight A student. My ex and I have both been paying child support while he was in treatment. Here's my problem, he has been out since October 30th and they are still taking support out. Everytime we call we just get the run around. What makes it worse is how close to Christmas it is. Seems unfair being that when the state wants the support money they take it right then and there. Somebody told me they are probably keeping it for the interest earned on it. That I don't know. Anyhow if anyone could help out we would really appreciate it. Thank you for your time.

Subject: not notifying students of state shutdown in time to stop expenditures

Message:

Gov. Justice: I was schedule an annual retraining class at Danville today from 8a.m. to 4p.m. Dec. 5th 2018. I called the Danville office yesterday at 3 pm after hearing of all the federal shutdowns over the funeral of former President George Bush. Just to inquire if there would be classes today, and I was told yes. However when I got there this morning at 8 am I found a not on the door proclaiming that you had made it a off day for the state employees in his honor. Which is ok by me yet I feel cheated because I was not notified and did not hear of it on media. So I drove the 80 miles from Dunlow WV to Danville WV by way of Rt. 119 and back a total of 160 miles and missed a days work! Why couldn't you have made this decision earlier to allow people to be notified. I think it's only fair that you authorize me to recieve a re-imbursement of the rate in mileage that you pay state employees for travel to and from a place. Now I have to reschedule and lose another days work and I only have till end of month to get my elctridian card and testing redone for the annual. I would also like to know why toisia highway is not being completed and why no roadbuilding is going on in Wayne county we pay taxes here too! Route 152 is in deplorable condition and the new tax you increased to repair road needs to be spent here. Also we have the largest block of unmined low sulphur coal in the eastern united states here in wayne county why are there not any mines going in here. now is the time for a boon! There are large tracts of level land along the tug fork with river and rail access and it is just sitting idle we have huge natural gas deposits here as well. Wayne countians need jobs that pay well also. It's been rough since alpha closed rocksprings mining down! I'm sick of seeing all the states tax money spent in the eastern counties like greenbrier. We are near to the poorest co unty for income and we need work here too!

Subject: End blue laws and allow 7-day spirits sales in WV!

Message: Governor Justice,

West Virginia's outdated blue law banning retailers from selling distilled spirits on Sundays is extremely inconvenient. Consumers like me deserve the choice and convenience of 7-day alcohol sales.

This just makes sense, especially when our neighboring states already allow 7-day sales of spirits.

It's time to Boot The Ban! Please support pro-consumer legislation allowing West Virginia retailers the choice to sell distilled spirits 7-days a week. Joshua Elkins

Subject: Rebranding WV

Message: I would like to discuss rebranding West Virginia with the Governor. My firm has a proprietary rebranding process, has been in business for over 20 years, has done work all over the world, and is veteran owned.

We don't simply need a better strategy, we need a "creative" strategy. Most people have a plan...but they often aren't good plans. Our process includes diagnosis, strategy, essence, application, and reapplication. With additional emphasis on addressing targeting and outcomes, our process can help clarify vision, enhance our culture, build our brand...and provide excellent ROI.

Marketing is not about what we have and how can we sell it to someone...its about what the world (market) needs, and how we can fulfill those needs. I believe we have some fundamental problems with our brand and our message--and I am interested in talking with the Governor about an opportunity to refocus.

Peace. + Thanks!

Steve Blackwell
Principal/Creative Advisor
Blackwell and Co.

Email: [REDACTED]
Subject: Thank You for Working on the Drug Problem and Please Include Pretera Center In Your Council

Message: Honorable Governor Justice:
This message is to express appreciation for your recognition of the drug epidemic in our state and your willingness to help solve the problem. As you visited Huntington yesterday to announce the formation of your statewide addiction council, it occurred to me that I should write to you to express my sincere desire for Pretera Center to be represented and involved. Pretera Center is the largest behavioral healthcare center in West Virginia and we have been helping people overcome addiction and mental health conditions for the past 51 years. I personally have served on your substance abuse committee when you first took office, and I have worked my entire professional life helping people solve their addiction and mental health and trauma issues (and I have been at Pretera Center for the past 29 years!). As a Master Addictions Counselor with the National Association of Drug and Alcohol Counselors, I don't mind extra work and would welcome the challenge and the opportunity to serve on your new council. Or, if you prefer, the CEO at Pretera Center is Karen Yost and I am certain she would also be a very good asset to the Council as she has served on a past Governor's Advisory Council on Substance Abuse. Karen's e-mail is Karen.Yost@pretera.org. It is my firm belief that Pretera Center should not be shut out of your newly appointed council and that truly, our experience and knowledge and expertise will benefit the council moving forward. Again, I commend you for taking action on this important issue - too many West Virginians are dying too often from a perfectly treatable condition. Thank you for your time and consideration and I look forward to hearing back from you.

Subject: Our campus (WVU at Parkersburg, kept open on Wednesday, December 5th

Message: Dear Governor Justice: Chancellor Sarah Tucker has authorized the Presidents of the various Community and Technical Colleges to remain open on Wednesday, December 5th. Our President, Dr. Gilmer, has elected to keep the WVU at Parkersburg campus open during this Statewide Memorial Day for President George H. W. Bush. I understand that a number of the CTC college presidents have made a similar decision. I am deeply disappoint that colleges and universities of the State of WV, a state with one of the highest percentages of veterans per ca pita in the Union, would remain open. I served my country for 8 years in the US Navy. Fortunately I am a faculty member so I have some flexibility in my schedule, so I plan to be at home watching the memorial service of this great hero. I can only wish that my fellow WVU-P veterans had the same privilege. One day of missed classes is not going to cause any serious problems for our faculty nor our students. Missing out on this memorial service can never be made up. Deeply, deeply, saddened! Dr. Larry Muller, Associate Professor, and Petty Office 1st Class, US Navy, Retired.

Subject: State roads in housing developments not getting properly fixed

Message: 12.04.18 Dear Mr. Governor, Please be advised that I live at [REDACTED] 6104 Where the old Brierwood addition branches off to off Route two in Parkersburg towards Waverly and the Wood County Airport. This housing development is in poor state right now. All is being done is wasting money and time on asphalt patches that do not last long. Can each badly patched and holed up parts be re concrete? Yes i have contacted state road and they say no money or the way the road is built they can not help. All is ever done is patched jobs that creates the road to be bumpy. It is a liability for our State. Children walk on this road home from the bus. Buses do not come down that road anymore due to the road condition. a child is going to get hurt badly. We wouldn't want that for our State. Would you look into this ASAP and email me back what the plan will be to fix this addition. just certain squares need concreted again. not the entire road. Would that be an option? Respectfully, Candy Summers, concerned mother and resident.

Subject: Help needed

Message:

Dear Mr. Justice,

Your last name is what I am looking for. My son is having some serious issues with corruption in our county. And I have sent emails before to your office. And was told if it was not a state issue there was nothing that could be done. But it is a state issue and I need your help please. I need someone to listen to me. My son will be losing his freedom and taken away from his 3 small children and all I want to do is give up on life. This is destroying the entire family. This current situation is happening because of a police officer who has harrassed my son for years now, getting involved with the current situation and having a person press charges against my son. It is a long story and goes back many years. But at this point ...this corruption could put my son away for a long time. And would destroy my grandchildren's lives. They will lose their home. I have talked with the supreme court in the past and plan on another call there about the local district attorney and county officials. Sir, I understand this may not be of any concern of yours. I know you have many issues you have to deal with on a daily basis. But this is seriously all my concerns and issues are right now. And I am doing everything I can to hold my own life together...and the lives of my family and grandchildren at this time of year right now. At any time of year this isn't something any family should ever have to deal with. I just need one person in this country of ours to listen to me and offer some means of information and help. I pray every day...several times a day. Looking for answers sir. My phone number is [REDACTED]. If you can find it in your heart to listen to me I would forever be grateful to you. God bless. And thank you for even the chance to try and reach someone who may be able to help in some way.

Message: Hi Governor my name is Jason Rotruck an I am a white [REDACTED] male ~ I have been given a plea for domestic battery over a scratch on my wives bra line :(! She had been laying an waiting for anything to charge me with to take all my belongings an put me in jail. I have many people that can testify that she was gathering everything she could to throw me under the bus so to speak. She took my [REDACTED] boy to South Carolina to her parents place an I was granted visitation on Saturdays at 530 pm through Sunday at 530 pm an I live in Mineral County West Virginia. She is still drawing welfare from WV an no longer a permanent resident. The main reason why I am writing you Gov Jim Justice is I am a avid deer hunter an my lawyer Nick James told me any requests to restore deer hunting rights with a long gun are rarely ever given. I am wondering why this is being said. This rumor doesn't sound like the Governor that I know was elected to run our great state of West Virginia ! If there is any advice or recommendation that you could please give me I would be indebted to you for ever. If you cannot contact me by phone my Email is [REDACTED] Thank you Mr Justice !! Have a very Merry Christmas !!

Subject: End blue laws and allow 7-day spirits sales in WV!

Message: Governor Justice,

West Virginia's outdated blue law banning retailers from selling distilled spirits on Sundays is extremely inconvenient. Consumers like me deserve the choice and convenience of 7-day alcohol sales.

This just makes sense, especially when our neighboring states already allow 7-day sales of spirits.

It's time to Boot The Ban! Please support pro-consumer legislation allowing West Virginia retailers the choice to sell distilled spirits 7-days a week. Eric Newsome

Subject: Boot The Ban! Allow 7-day spirits sales in WV!

Message: Governor Justice,

As a West Virginian, I strongly support legislation to allow retailers the freedom of providing 7-day alcohol sales, if they so choose. Unfortunately, our outdated blue laws still ban the sale of distilled spirits at retailers on Sundays. This is extremely inconvenient and out of step with the 42 other states that allow the sale of spirits 7-days a week.

It's time to Boot The Ban! Please support pro-consumer legislation allowing West Virginia retailers the choice to sell distilled spirits 7-days a week. Kay Miller

Message:

Dear Governor,
I visited your state at the Charleston casino and I was amazed at how you allowed smoking inside the building. I kept telling a working there who wore a yellow jacket, and she was roping off an area near the bar and the band stating this area was reserved, asking her to please put out her cigar. I stated the band is playing and is having a hard time breathing. She turned to me and took a big drag and smoked more. She started blowing the smoke everywhere. I thought to myself wow, the workers here are rude, then I looked around and there were people smoking cigarettes playing the machines. I stayed a few more minutes than I walked to the shuttle entered and asked the door man, is it normal for smoking to be allowed inside the building? And the doorman stated, yes! He stated, this is a good night, Friday, because you can at least see across the room. Normally it is so fill with smoke, one can not even see 30 feet in front of you. It looks like a cloud.

I will never go back. I live in Maryland and it is so nice to enter a building and not breath smoke. So many people do not smoke, even in Maryland casinos they have smoking areas and it works out great. The workers at West Virginia casinos should not have to endure working in that environment. The smoke is poison. Please pass a law to stop this and simply have smokers move to a smoking area. It's that simple. Let me ask you would you and your family work or live day and night in a smoke fill room like the casinos. Well some of those people have no choice because they are trying to put bread and beans on the table. Take a walk through there on a Friday or Saturday night, do not let them know you are coming. Most of the players are addicted to gambling too. But the workers, have not choice they have to live. Be kind! By the way, read the side of a cigar or cigarette box it will tell you how dangerous it is if you forgot. Second hand smoke is even worst!!!!

Subject: Idea for West Virginia

Message:

Hello there!

As we both know West Virginia isn't in the best place financially. With coal being targeted to end its come to an issue that we don't have many things making this state money. I did a little research to see about the lumber in this state. We have approximately 12 million acres of lumber across West Virginia alone. If West Virginia could set up the ability to cut down a certain acreage a year and use that lumber to create more revenue to the state I think it would be a good idea. An example being, if we used White Oak we could cut around 60,000 acres a year and still shouldn't run out of tree as long as my math isn't wrong. This is an idea I thought of and I'm not sure if West Virginia has even tried to do anything with the lumber but I think it would be a fantastic way to make money for the state. Along with that, the money for it could go towards the roads as well but that could also be a city issue. In the end, West Virginia needs more job and more money and I think lumber is the last thing most people even considered so I wanted to shed my knowledge on it. Thank you for taking the time to read this. Have a wonderful day!

Subject: Help with the Opioid Addiction problem

Message:

Do you have licensed professionals or public servants addicted to opioids? Would you like to make them quit and stay quit without taking away their licenses or jobs?

We can help your members affected by opioid addiction quit and stay quit beginning with a medical procedure that takes only 8 hours, without feeling the effect of physical withdrawal while sleeping under general anesthesia. They can return to work after 7 days, and can stay abstinent from opioids thereafter with once a month injection of FDA-approved Vivitrol injections.

My name is Dr. Thomas Yee, M.D., certified by the American Board of Anesthesiology, the American Board of Pain Medicine, and the American Board of Addiction Medicine, in practice since 1993. We can use Naloxone and FDA-approved long-acting opioid blocker Naltrexone (Vivitrol) to stop a person's opioid physical addiction in 8 hours under general anesthesia. They will return home and return to work with the FDA-approved opioid blocker Vivitrol already injected in their bodies, which will block all opioids for 30 days. You simply need to enforce that they get a follow-up injection of Vivitrol every 30 days in order to be allowed to work. Continue the monthly Vivitrol injections for 12 to 18 months, then your member will have the best chance to stay abstinent for long term afterwards.

Since 2007, we have safely performed the procedure 610 times in accredited surgery center operating rooms, all without complication. Your addicted members do not want to lose their hard-earned licenses, but you do not want them to continue working while being an addict. Instead of forcing addicted members to lose their license, you can offer them a way to quit addiction and keep their license. We can help. Our website is www.saferapiddetox.com. My personal cell phone is [REDACTED]

Thomas C. Yee, M.D.

Subject: Eviction of Grieving Mother

Message: I come to you in complete awe of a situation I am doubtful that you are aware of. A life long friend whom lived in Greenbrier Estates during last year has had exymme issues eith pregnancy and was evicted from her home with teo children due to complications with her unborn child who had down syndrome. The baby had several medical issues which the mother was being treated for and at the time was unable to work. That baby ended up being born two months early and underwent a major surgery which enabled her to love for 27 days. During which my friend was served the eviction notice and told she had twenty days to remove her belongings. Yesterday morning her baby died. She has asked the apartment tentant to allow her an extended time to remover her belongings in which she was coldly told If she didn't remove it in the time frame she was given ot would be donated to someone else. During this time DHHR offered to pay past due and three months of rent and she was also told no. She is not asking for her house back but could you pease give her time to bury her child before dealing with uprooting the remaining member of her family.

Subject: Trash

Message:

Dear Governor,
I moved back to WV after living thirty-six years in Houston. My dream has always been to move home, buy land, and build a home. That dream is now a reality. Just last week I drove back to Houston to visit family. Along the way, I could not help notice the eight states I drove through had significantly less trash along there highways. I might add all these states far exceed our states population and have more through traffic. I have always noticed the excessive litter in WV because my wife and I travel the roads frequently sight seeing but on this particular drive I decided I would send you an email. I think a serious and aggressive campaign needs to be launched to reduce the eyesore of trash in our state as well as raise our populations awareness. I suggest TV, radio, and education in the elementary schools. A sad Mountain Man with his musket looking at all the trash would gather attention. The people of WV are a proud people but I just don't understand the lack of respect for our beauty. We need the trash picked up and then keep it from being dumped out! I know your working hard to create an environment that is attractive to businesses. I see the efforts coming to fruition in the road improvements, high speed internet, etc. However, this beautiful setting God provided us is in desperate need of attention. It's sad and right now our state sure doesn't look like "Almost Heaven".

Sincerely,

Chris

I know your working hard to create an environment that is attractive to businesses. I see the efforts coming to fruition in the road improvements, high speed internet, etc. However, this beautiful setting God provided us is in desperate need of attention. It's sad and right now our state sure doesn't look like "Almost Heaven".

Sincerely,

Chris

Subject: I 81

Message:

Dear mr. Governor,
I am coming to you with great concerns over our Interstate 81 roadway from The Virginia line to the Maryland line This roadway is atrocious now they're trying to do some work recently. They have taken two lanes change the width moved it over to the left and a concrete barriers to the right and they dug out the painted yellow lines on the edges and the centers. In this digging it has caused ruts in the road probably too 3 in deep baby and when your tires go into these ruts it throws you all over that road. If you contact our Police Department or assume that's who you contact. They will tell you we have had so many accidents because you can't stay stable in these areas. Can you please please please send someone out here right away we need this correct that take the barriers off of that road at least if you're not going to fix the road immediately get rid of those barriers and please come in here and fill in those gauges in the interstate. Someone is going to die this is dangerous we have an interstate 81 to use as a travel means here in my little town of Inwood which already is messed up for roundabouts thank you and you can't even hardly get through because everybody is coming off of the interstate through our little town of Inwood West Virginia to avoid these accidents that's happening between mile marker 5 and Mile Marker 8 we also have a lot down on mile marker 20 and 22 and 23 and mile marker 12. Please send somebody out calm yourself travel this area of Rhode it's a danger I'm begging you please come fix this stretch of road take down the concrete barriers fill in the gouges and when you're really ready to fix a road fixing and sections don't make all these adjustments and we're not doing anything I don't know who's in charge of this somebody has failed miserably please. Thank you thank you so much Kathy Anderson Inwood West Virginia

Subject: West Virginia Supreme Court of Appeals nominee

Message: This jurist you have appointed for this position is not the right person for this job. This justice destroyed my family from 1999-present. I will be telling my story concerning this nominee to the public so they know how this man operates concerning justice in Raleigh County and why he is not the right individual to be sitting on the highest court in WVA. During my time dealing with this jurist he used the prosecutor's office, DHHR employees, and other official state workers to violate the rights of my family. I lost my parental rights to my child in 2002. How can I lose my rights to a child I NEVER had custody of? I plan to fight against your nominee with my true story of the destruction of my family due to this jurist behavior and actions in my case. With his help, I files charges against the judge, prosecutor's office, DHHR, and the guardian-ad-litem, for charges of conspiracy to discriminate against me and my family. My complaint against all parties involved is part of public record, I guess. I have an attorney just in case retaliation is forthcoming. Thank you for your time.

Subject: Destruction of Historical Objects

Message: I live in Alabama and have no say in the business of your State. I do have business as a life member of the Sons of Confederate Veterans protecting the good name of the Confederate Soldier and my ancestors who fought for the 10th Amendment or States' Rights. I hope your State will pass a law as we have in Alabama to protect all historical objects before the ISIS types and anti-South bigots remove all such items in your State. I never thought I would see the day in America but if you live long enough, right? Alabama recently passed The Memorial Preservation Act and those who try to destroy or remove any historical object or change names, etc will face fines and have to replace such objects per the law. Yes, I know West Virginia is a yankee State, born illegally out of the War for Southern Independence as it is not legal according to the original Constitution to create a State out of another State. So be it. The Constitution has not ruled since the tyrant Lincoln and we true Southerners don't expect to ever be treated equally. The fact is there are many a person living in West Virginia who has a Heritage of family members who fought with The Confederate States of America or served it in some manner. Please try to honor those men and women who fought and died protecting their homes and families from the yankee invasion. God Bless Dixie

Subject: My daughter's health

Message: Dear Governor Justice,

Thank you for taking your time to read this letter.

I am writing on behalf of my 13-year-old daughter, [REDACTED]. She was diagnosed as a [REDACTED] in June 2018, [REDACTED] started using the Dexcom G6 CGM (Continuous Glucose Monitor). At that time, she was insured by West Virginia Chip and this was a covered expense. Due to a change in income because of my cancer diagnosis in May, she was changed to straight Medicaid on September 1 and then on November 1 was transferred to UniCare. They do not cover the cost for the G6. This is a medically necessary tool to help [REDACTED] manager her [REDACTED] it keeps track of her sugar levels and whether her sugar is rising or falling. This allows her to make adjustments - such as taking more insulin if her sugar is too high or eating if it is too low - before a crisis occurs. Additionally, she would greatly benefit from an insulin pump, which is a covered expense under all Medicaid plans, but she cannot have that until she shows compliance with her CGM. G6 is the newest product, does not require calibration and therefore she would not have to stick herself as much and would be more likely to comply. Unicare, after many discussions and an escalation to their grievance and appeal department, said they would provide a G5; however, this would not be as cost effective because she already has the expensive pieces of equipment for the G6. Furthermore, the G5 requires calibration therefore she will have to stick herself more often and it would require more lancets, test strips, and alcohol pads, increasing the long-term cost.

Here is an example of how the G6 has helped Hope. Over the summer she went on a church camp retreat with my roommate. Her sugar dropped to a dangerous level while she was asleep. The G6 alerted both [REDACTED] a her G6 receiver and my roommate, via an AP on her cell phone, of the problem. My roommate was able avoid a crisis by waking her up and making sure she had something to eat. Had she not, there is a real possibility that Hope could have gone into a [REDACTED] coma and perhaps died before morning.

I am asking you to review this to see how Medicaid can more effectively address the issues unique to those with [REDACTED] in West Virginia. [REDACTED] is a difficult disease to control for anyone, especially children. It is not fun to poke yourself with a needle no less than 5 times a day to make sure your blood glucose under control and to have inject insulin multiple times a day as well. A CGM in addition to a pump reduces the amount of sticks per day and reduces the risk of [REDACTED]. This will improve both the quality of life and the life span of the individual.

Please feel free to contact me at [REDACTED] if you need any further information.

Yours truly,
Lisa Jacob

Message: Email sent to:

Jim Weekley, Bureau Chief Financial Officer
Office of the Deputy Commissioner of Operations
WV DHHR Bureau for Children and Families
350 Capitol Street, Suite 730
Charleston, WV 25301

304-356-4544 (office)

I am contacting you in order to ask for your assistance as well as guidance on how to navigate WV State Government.

My communication today is in reference to the past due invoices totaling approximately \$165,000 owed to my company HRS. I realize it may take time to investigate the matter regarding the actions of the Mingo County employees, as I am sure almost 700 separate instances of this type are concerning to the WVDHHR, but I don't think it should keep the Accounts Payable Dept. from processing and paying the outstanding invoices of a reliable and valued vendor of this account for the past 12 years. It is very evident our forms were manipulated and changed in order to get test results that would have otherwise required a court order signed by a Judge. My first email and submission of the invoices occurred on September 27th and there has been little meaningful communication from the agency regarding this matter. I have been very patient and kind as the below email string will document, but I believe there has been sufficient time to enter and pay the invoices.

As a small businessman I am asking for your help as I know that you have an understanding of accounting and finances. For a large company or Government agency this may seem to be a small amount of money, but for my company this has become a critical situation. Our vendors have been understanding and patient to this point, but that will not last. Also to a company such as ours that uses the accrual method of accounting this will affect our taxes by having to carry this into 2019.

Please understand I realize as the CFO you have many other projects besides mine and I really am not the kind of person who wants to be considered bothersome. Our goal is to resolve this matter and have our reputation remain high in the agency's mind as we would like to think we can eventually get the account back and show our value and expertise once again to the Bureau of Children and Families when it goes out for bid again. I do however need to know when the check will be processed and would like to ask if you could please pay all invoices before the end of the year.

Sincerely,

Michael Day
President
Health Research Systems / EMSI
Huntington, WV

304.529.4459 Fax

First Email Sent on 9-27-2018

It has come to our attention that a number of employees including supervisory personnel in the Mingo County office have created an HRS referral document in order to facilitate unauthorized drug testing for their cases. These types of tests would normally require a court order, a special referral form, a different laboratory, a different chain of custody form, and different pricing.

We feel it is necessary to explain the process of getting a test completed so you can then understand how far outside the parameters they were in obtaining the results without proper documentation and thereby preventing HRS from properly billing the tests to the State.

Steps to procure a standard contracted WVDHHR test.

1. Send a referral form to HRS with Name, and FACTS ID as well as other info.
2. HRS then sends referral and pertinent info to clinic, Dr's office or collection facility.
3. Donor reports for test and a proper preprinted chain of custody form for QUEST Diagnostics is used which has the proper test # which lets the Lab perform the right lab panel of 9 drugs plus Oxycodone.
4. Case workers check for results via internet

Steps to perform testing for additional drugs not on the standard test.

1. Send referral form to HRS with request for additional drugs.
2. Supply court order signed by a judge requesting specific drugs required.
3. HRS then sends referral and pertinent info to clinic, Dr's office or collection facility along with chain of custody forms from a different lab, which is CRL. This difference is a key in understanding how this went unnoticed.
4. Donor reports for test and a proper preprinted chain of custody form for CRL Labs is used which has the proper test # which lets the Lab perform the right lab panel of 9 drugs plus Oxy. This form also contained the proper test order # to perform the right lab panel for the additional drugs.
5. Case worker is unable to check for results via internet from CRL Labs and these results were sent to the case worker by HRS staff.

The key differences here that caused the problem are the circumventing of standard operating procedures to order a test for WVDHHR from HRS.

1. They added additional information to the referral form in the way of test panel codes.
2. They submitted the referral form directly to the collection facility and submitted nothing to HRS in many instances.
3. They requested the collection facility to hand write the panel # (29110N which is a panel # exclusive to Quest) for additional drugs on the standard form for Quest which meant the other lab (CRL Labs) was not used and the results were reported over the internet. This key fact kept HRS staff from seeing results which would have made it known that Mingo County DHHR workers were obtaining results without proper permission of the courts and those additional tests were not being billed at the correct rate.

The creation of an HRS form and its use to obtain drug tests for Bureau of Children and Families has resulted in approximately 700 tests being improperly billed to WVDHHR.

The process we used to find all impacted invoices.

We accessed the lab results going back as far as necessary to find all tests that were affected. When this was accomplished we verified which ones were paid at the lower rate and which ones had not been billed at all, because Mingo County had not forwarded a referral to HRS as is required, and which ones had been billed and were not paid because Mingo County would not supply FACTS ID numbers or other pertinent information. Once this task was complete we produced invoices reflecting the difference between the cost of a test at Quest Diagnostics, (which we had not negotiated with Quest for a price on these

panels), and CRL. This resulted in a \$237.50 difference in most invoices.

We are submitting the approximately 700 invoices for payment by courier this week.

We have examples of the documents we are referring to but have chosen not to include them in this email so as to avoid any privacy issues. If you would like to review them you can submit a request for the information and a statement relieving HRS of any claims of a privacy breach.

Mr. Lopez,

I received your letter today. Thank you for the kind response. In reference to your statement about the current state of the contract, I would like to clarify that all the referenced invoices and tests happened while the contract was with HRS. We sent all the invoices last Friday to Patricia Nelson, Director, Division of Payments and Vendor Maintenance.

Could you please provide us with the email address of Ms. Mitchell so we can forward her any additional information she may require. I'm including a copy of the form that was significantly changed by the personnel at the Mingo County office with donor info redacted. I am also including the original they were provided by our staff for comparison.

Thank you for your assistance in resolving this matter,

Michael Day
President
Health Research Systems

Subject: CPS Drug Testing

It has come to our attention that a number of employees including supervisory personnel in the Mingo County office have created an HRS referral document in order to facilitate unauthorized drug testing for their cases. These types of tests would normally require a court order, a special referral form, a different laboratory, a different chain of custody form, and different pricing.

We feel it is necessary to explain the process of getting a test completed so you can then understand how far outside the parameters they were in obtaining the results without proper documentation and thereby preventing HRS from properly billing the tests to the State.

Steps to procure a standard contracted WVDHHR test.

1. Send a referral form to HRS with Name, and FACTS ID as well as other info.
2. HRS then sends referral and pertinent info to clinic, Dr's office or collection facility.
3. Donor reports for test and a proper preprinted chain of custody form for QUEST Diagnostics is used which has the proper test # which lets the Lab perform the right lab panel of 9 drugs plus Oxycodone.
4. Case workers check for results via Internet

Steps to perform testing for additional drugs not on the standard test.

1. Send referral form to HRS with request for additional drugs.
2. Supply court order signed by a judge requesting specific drugs required
3. HRS then sends referral and pertinent info to clinic, Dr's office or collection facility along with chain of custody forms from a different lab, which is CRL. This difference is a key in understanding how this went unnoticed.
4. Donor reports for test and a proper preprinted chain of custody form for CRL Labs is used which has the proper test # which lets the Lab perform the right lab panel of 9 drugs plus Oxy. This form also contained the proper test order # to perform the right lab panel for the additional drugs.
5. Case worker is unable to check for results via internet from CRL Labs and these results were sent to the case worker by HRS staff.

The key differences here that caused the problem are the circumventing of standard operating procedures to order a test for WVDHHR from HRS.

1. They added additional information to the referral form in the way of test panel codes.
2. They submitted the referral form directly to the collection facility and submitted nothing to HRS in many instances.
3. They requested the collection facility to hand write the panel # [REDACTED] which is a panel # exclusive to Quest) for additional drugs on the standard form for Quest which meant the other lab (CRL Labs) was not used and the results were reported over the internet. This key fact kept HRS staff from seeing results which would have made it known that Mingo County DHHR workers were obtaining results without proper permission of the courts and those additional tests were not being billed at the correct rate.

The creation of an HRS form and its use to obtain drug tests for Bureau of Children and Families has resulted in approximately 700 tests being improperly billed to WVDHHR.

The process we used to find all impacted invoices.

We accessed the lab results going back as far as necessary to find all tests that were affected. When this was accomplished we verified which ones were paid at the lower rate and which ones had not been billed at all, because Mingo County had not forwarded a referral to HRS as is required, and which ones had been billed and were not paid because Mingo County would not supply FACTS ID numbers or other pertinent information. Once this task was complete we produced invoices reflecting the difference between the cost of a test at Quest Diagnostics, (which we had not negotiated with Quest for a price on these panels), and CRL. This resulted in a \$237.50 difference in most invoices.

We are submitting the approximately 700 invoices for payment by courier this week.

We have examples of the documents we are referring to but have chosen not to include them in this email so as to avoid any privacy issues. If you would like to review them you can submit a request for the information and a statement relieving HRS of any claims of a privacy breach.

Thank you,

Michael Day

Subject: Pruntytown correctional center

Message:

My husband Steven Smith is incarcerated in Huttonsville Correctional facility. On June 12 2018 he was in Pruntytown Correctional center. He was sexually assaulted by another inmate. There was officers that was supposed to be watching a video surveillance. Some where between 2am and 4am he was sexually assuolated by another inmate. He tried to report it to an officer at 5am by 730am nothing was done so he called me and I begin making phone calls. I reported it to the prea director of pruntytown and the warden. I also contacted the prea coordinator in Charleston at the wvdoc. I filed a grievance with the prison. I have sent email to the FBI, president Trump and grafton wv city hall regarding this matter. We are wanting to file a crimianl complaint against Pruntytown Correctional Center and the WVDOC for not keeping him safe and not doing their job. All the information was sent to the wv state police and so far nothing has been done to charge the other inmate. A different inmate was transferred with my husband and told everyone there what had happened and labeled my husband and snitch and a rat. He has had a lot of issues being at Huttonsville. Inmates have been wanting to jump him and fight him and telling him he has to pay the 150 a month to be on the unit or pay the consequences. I have also reported this to the prison. They took and asked my husband in front of other inmates about this and he denied it all because he was afraid they would jump him afterwards. Instead of moving him from the unit he was on they kept him there where his cd player, his electric beard trimmers, cup, bowl and some hygiene items was stolen by the other inmates. I called several times to report this. It took him to refuse housing for him to be moved from the unit he was on. He feels that Pruntytown, WVDOC and the wv state police have not done their job to keep him safe and to press charges on the other inmate that committed this crime against my husband. He is very depressed and can't sleep because he doesn't know what is going to happen to him. He was on medication for depression and it made him very sleepy. Since this has happened to him he has stopped taking his medication. All of his personal hygiene items that was new and unopened was supposed gonna be transferred with him to Huttonsville. One of the correctional officer told him they was throwing it all in the trash. He had just went to the store and purchased almost \$100 worth of items that was thrown in the trash. I would like to know what steps I need to take to file criminal complaints against the prison and the doc. PREA notified him today that they have dropped his claim stating there isn't enough to go on. The wv state police does have video of this happening and my husbands statement. Can you please help me on How to pursue this further?

> Thank you

Subject: A SALUTE and a WHOLE-OF-GOVERNMENT APPROACH to the OPIOID EPIDEMIC

Message: Governor Justice,

A salute to you, your fine leadership efforts in combating the opioid epidemic in West Virginia, and to West Virginia's moving ahead of the curve in this national crisis...
And your initiative to create a Council on Substance Abuse and Prevention is commendable...

FYI: This recent statement from White House Counsel, Kellyanne Conway, about governance of the Opioid Epidemic might be of interest...

In the paragraph, starting, "But the bill..."

"The Administration, through its collaborative 'Opioids Cabinet,' staff from Cabinet departments, and agencies engaged in combating the opioid crisis, has focused on a WHOLE-OF-GOVERNMENT approach that aims to treat the WHOLE PERSON." (emphasis added)

"We can bring the opioid crisis to an end," Kellyanne Conway, WTHI-TV, News 10, Terra Haute, IN, October 26, 2018.
<https://www.wthitv.com/content/national/498653361.html?ref=361>

The Opioid Epidemic is of such historically tragic proportions that in combating the epidemic it might be feasible to forge a lasting, cross-agency/department "collaborative doctrine" at the state level*** that could pertain, again and again, to other major cross-agency governmental problems -- one "doctrinal size" fits all...

Best wishes, Dennis Brezina, Chesapeake City, MD

https://www.senate.gov/artandhistory/history/oral_history/Dennis_Brezina.htm

With 42 years of uninterrupted recovery from alcoholism and prescription drug addiction, thanks to an excellent Veterans Administration Rehab, and 12 Step programs...

*** Several years ago, Governor Herbert (UT), after successfully enhancing service delivery WITHIN state agencies, set about "to do the same thing ACROSS the entire system of Utah state government." (The link to Governor Herbert's WHOLE-OF-GOVERNMENT statement of several years ago is no longer active.)

Subject: Mine rescue

Message:

Dear Governor Justice,
I am writing in regards to the recent mine rescue. You see, I had family on both ends of this event. Two lost, one rescuing. I know the mine rescue doesn't sign up for the glory, they don't seek fame or even an At-a boy! I'm sure you witnessed that with a very humble Eugene White. They sign up to save their own, mine rescuers save other miners. In other events they save lost "idiots". Let's be real, my cousins were idiots and they will admit it now that they are safe. My reason in writing this, I wish we could give the mine rescue teams some glory. They worked hard and they worked long. I think you could help honor them and their wives who wait by their phones to make sure they are safe as well. Please consider offering them an all expenses paid weekend get away to The Greenbrier for their selfless acts of heroism.

Thank you kindly,
Tiffany Olds

Subject: Corrections Restructing and Reallocations

Message: Mr. Justice, I'm in a bind. I have been reallocated to Glenville as a Division of Corrections and Rehabilitation Basic Trainer from Cedar Lakes. I live over 100 miles from Glenville and am a single parent. I have 13 years in with the state. National recognition in '06 as one the best correctional officers in the country. I moved from juvenile corrections as an officer at the James H. "Tiger" Morton Juvenile Center to a counselor at the Kanawha County Youth Reporting Center, and then on to the training department in order to positively effect not just our at-risk and adjudicated youth in this state, but a broader audience of the people who deal with them to attempt to guide as many staff members as possible through evidence-based and positive accomplishments. There were 51 reallocated positions in the Training and Staff Development section of the Division of Corrections and Rehabilitation, and my coworkers and I have all been reallocated to Glenville to be permanent Basic Trainers. I feel as if I shouldn't have to choose between my daughter and my career anymore. I can't stay away from my home for four or five days a week as I'm the sole provider for my child, nor should I have to drive over 220 miles a day to work. I've paid my dues, sir. I've been an excellent employee for the state for well over a decade. I've broken bones while on duty, went above and beyond more times than I care to try to count and have served with honor regardless of personal or professional hardships. All I ask is another viable and fair choice. I have some college education but no degree which most state jobs require in lieu of experience. I don't want to my abandon my time with the state and all the good I've done, but I can't abandon my daughter for a reallocated position over 100 miles away. No other option has been provided to me as far as reallocated positions. Please sir, consider this communication from a dedicated employee as a cry for help on a personal and professional level. The chosen reallocated position that has been recently thrust upon me is really a choice of child or job; give up one to provide for the other. What real choice do I have?

toward that facility is uncertain at this time. With that in mind, the GRVHF board and staff recently went through a Strategic Planning process. In addition to our new name, we look forward to deepening and expanding the ways we can support health care in Sublette County.

Moving forward, our Core Programs will include the following:

1. Supporting Families In Need
2. Scholarships for High School Students
3. Grant-Making
 - a. Sublette Center
 - b. Healthy You Program
4. Women's Health
5. Awards
 - a. Daisy Award
6. Wraparound Services
 - a. Dental Health
 - b. Mental Health
 - c. Transportation for out of county health care
7. Bridges out of poverty – a collaboration with partners
8. Continuing to explore a path for establishing a Critical Access Hospital in Sublette County

It is clear to us that our community needs health care support now more than ever. Will you consider a gift this year to help us improve health and wellness services in Sublette County?

Sincerely,
Sherrie M Escobar
Executive Director
Green River Valley Health Foundation

Message:

Dear Mr. Justice,

I'm writing to you today for the reason of Our WV roads, and infrastructure. The roads are the worse I've ever seen them, the ditches are full, overgrown and the roads are tearing up people's vehicles and are very dangerous. I see that WV government is taking on a lot of new or continuous road projects, but at what cost. The roads that most people, every day people travel are deplorable. There's getting left in the dust. There's roads that have whole lanes closed all year round. And traffic lights set up to get by. The so called patch jobs are a joke. I'd be ashamed to say that I did that repair work. They've been painting lines on these patches up pot holed filled roads.. why? That's a waste of paint and labor! I'm very confused and disappointed in West Virginia. We need to take care of ourselves. Please let me know if your going to do something anything about this ongoing problem.

Signed a concerned and upset resident of WV

Subject: Interstate and Route Road Markings
Message: Hello Governor Justice,

I am reaching out to you in hopes that you will review my concern and see to a quick fix due to the public safety at stake. I traveled Interstate 64 from Charleston to Milton this evening as the sun was setting and drizzling rain fell. I understand that this stretch of highway is undergoing construction, which can pose issue, however, in this circumstance makes the issue more serious. As I traveled, seeing the markings was near impossible in many miles. There wasn't any reflection in the paint, therefore, at 55-70 mph, portions of the highway appeared to be one massive lane with no divides. This is very seriously dangerous. The same issue occurs on Route 60 in Milton, as well as, the stretch of road from exiting the interstate at the Milton Exit to the Sheetz intersection. We have areas with different patterns due to construction and new routing and the lack of reflective paint marking the lanes and merging areas is really unacceptable. I'm sure that if you traveled this stretch in a drizzling rain, you too would see the issue.

It is my hope that you will insist that the Department of Highways follow up on this issue and mandate that the crew that did the painting job return and adequately put reflective material to guide drivers.

Sincerely,
Jessica Walden
Ona, WV

Subject: End blue laws and allow 7-day spirits sales in WV!

Message: Governor Justice,

West Virginia's outdated blue law banning retailers from selling distilled spirits on Sundays is extremely inconvenient. Consumers like me deserve the choice and convenience of 7-day alcohol sales.

This just makes sense, especially when our neighboring states already allow 7-day sales of spirits.

It's time to Boot The Ban! Please support pro-consumer legislation allowing West Virginia retailers the choice to sell distilled spirits 7-days a week. Gina Parker

Message:

Governor Justice,

It's hard to understand why West Virginia's blue laws **STILL** ban the sale of distilled spirits at retail establishments on Sundays. This makes no sense and is extremely inconvenient. Why shouldn't I be able to buy a bottle of my favorite distilled spirit while I'm doing my shopping on a Sunday?

It's time to Boot The Ban! Please support pro-consumer legislation allowing West Virginia retailers the choice to sell distilled spirits 7-days a week. Tracy Seffers

Subject: Senior Apartments with Bed Bugs

Message:

My elderly mother lives in Stone Wall Haven Apartments in Martinsburg .She has lived there a long time. In October my mother seen a bed bug on her . Next thing you know they are all in her apartment. Mice ate clean through her love seat , I have called the building inspectors office and he's been over there several times . Housing had sent their own maintenance people in to treat the bed bugs . We threw away my moms furniture washed everything put it all in bags and they are on her balcony. She can't even have her clothes in the apartment. I addressed housing and told her my concerns . It took them over two weeks to come and even check and treat her apartment. I called my friend that is an expert and he said the whole building is most likely infested. He also said it needed to be gased which would kill everything. I know this is very costly but the place needs it . These seniors are having to live in these conditions and something else needs to be done other than what they are doing .

My mom was being ate on by these nasty bugs and I'm sure others are to.

These seniors can't just leave because it's income based.

I would really hope that you can step in and make things happen. These bugs go from one apartment to the other. It's never going away unless they gas that place. Please help my mom and all the other seniors.

Regards,
Bibi Combs

Subject: Signage and Route Marking

Message:

I have lived in Welch my entire life. I have seen its boom and now its decline. But to travel the roads everyday and see the lack of what has needed done for so many years is depressing and that it has been brought to the attention of the Mayors, Commissioners and the DOH and nothing done is sad. I see visitors to the area going onto one way streets, totally lost due to no route signs and the works. The Railroad Underpass on lower McDowell Street is a terrible accident waiting to happen. As we speak there is a large truck stuck there now. The only thing marking the clearance amounts are small and not noticeable. Just a while back a large tanker truck hit the underpass and was overturned, had there been a school bus or car in the other lane deaths would have happened without a doubt. There needs to be flashing lights to bring the attention to drivers of large trucks just what dangers lie ahead, but yet nothing has been done. McDowell Street has no route markings for drivers to ascertain which lanes or lane they need to be in or turn onto to get to Route 16 or Route 52. Elkhorn Street has no immediate markings for drivers to get to their chosen routes. Just primitive driving experiences present and no one cares that has been directed to for them to see that improvements need to be made. It would be great if since the Governor's Office is the last straw to step in and see that these changes and improvements are made and immediately before someone or a school bus is hit and deaths were the result of lack of caring was the issue. The whole town needs to be looked at for proper sign installation for our out of town visitors especially with the Hatfield McCoy trails bringing in tourism and money being spent in the county but nothing being done to assist them in the maneuvering in our town and county. Please see that Governor Justice gets on top of this situation and situations because I know he is a caring man and wants to help us in any way he can.

Message:

Good morning,

I am writing you this morning as a tax payer of this fine state. I was watching the news this morning and saw coverage of one of the thieves that were rescued, flipping off the camera. To say this is disgusting is an understatement. These people were thieves that risked the lives of those that went in to save them, and they have the audacity to flip off the very people that funded their hospitalization and their rescue. As a tax payer, I can think of many other things that we could have funded right before Christmas. We have many children in need.

I live in Southern WV, I am no stranger to the opioid crisis, and I empathize with those that are struggling with addiction, but I also know that we have to start holding thieves accountable. Regardless of their situation. These people were thieves that risked many lives and used a lot of tax dollars up, only to come out and embarrass the great state of WV. I hope that you will urge the authorities overseeing their prosecution to repay their debt and to make an example of this type of behavior. This was a complete embarrassment to this state - as you can tell by the pictures and videos that have gone viral on social media.

Not a good look for our state.

Subject:	Mine rescue.
Message:	<p>I would hope that you take this opportunity to rethink the way these situations are handled in the future. I turn on the news this morning to see all the festivities of rescued heroes, put on for petty thieves. I believe that this is the second mine related rescue of civilians in the past sixty days, both criminally motivated. These folks were trespassing for the sole purpose of theft. Yet they are cheered and greeted as heroes. It is ridiculous! I do apologize for not having a solution to offer along with my complaint, but I don't, yet. My thoughts go to the danger that our first responders were put through to rescue these low lifes. Then the amount of our tax money spent for the whole operation. All these could have been better used for actual work related mine rescues in the future. I'm not saying let them die, but they did not justify all the response, and especially our state Commander in Chief to go sit in waiting. That to me just appears as condoning what they did. Pardon my cynicism, but I am willing to bet that they will get off scot free with no prosecution or fines.</p> <p>Respectfully submitted, Brian Kosa</p>

Subject: Abandoned Mine Rescue

Message: Dear Governor Justice
Thank you for supported the recent rescue of 4 individuals trespassing in an abandoned mine! It speaks to the quality and integrity of leadership and rescue workers that all four were brought out alive! I do hope that the rescue expenses are passed on to the individuals who made poor decisions and NOT the tax payers! I currently have a son who has a head injury and incurred over \$26,000 in expenses for his Health Net flight and care when it was not his fault and I do not want one penny of my tax dollars to support people like Cody Beverly (the young man rescued who flipped off cameras within hours of his rescue while smoking a cigarette taking selfies with friends)
It is a sad time in our state when addiction is rulings lives and this is an opportunity to hold people responsible for poor irresponsible decisions.
These people should not be glorified, the rescue workers should be!
I also support your thoughts of trying to make it illegal for people to recycle industrial cooper!
I encourage you to not ridicule but make a positive example out of this situation, prosecute those trespassing, and force them to cover the cost of the rescue.....I know that I will be paying for my son's care for at least the next decade so why can't they?
Respectfully,
Cynthia Chamberlin MSPT

Subject: Missing from Boone County Wes Blackburn

Message:

Dear Governor Justice, the reason that I am writing to you is because I don't think you and your staff and the State of WV Police Department are doing enough to help find Wes Blackburn. I'm sure you've already heard, about people trying to steal copper from that abandoned mine in Boone County. Regardless of what they've done they are still human beings and it's the government's responsibility regardless, what type of person that they are, their responsibility is to assure safety to the public and if any person is missing its their responsibility to help find them. Listen Governor Justice, I'm not a man who is very assertive\ abrasive. I'm not a even a man who likes confrontation, all I'm asking and I'm not the only one their are several people in the counties of West Virginia who want to find out if Wes is dead or alive. Just try harder, so his family can get clousre.

Thank you,
Jacob K. Hawkins
